# SUMITOMO CHEMICAL

## SAFETY DATA SHEET

## VectoBac G Biological Larvicide Granules

SECTION 1: Identification: Product identifier and chemical identity			
Product identifier			
Product name	VectoBac G Biological Larvicide Granules		
Relevant identified uses of th	Relevant identified uses of the substance or mixture and uses advised against		
Application	Insecticide		
Uses advised against	-		
Details of the supplier of the	safety data sheet		
Supplier	www.sumitomo-chem.com.au Sumitomo Chemical Australia Pty Ltd Level 5, 51 Rawson Street, EPPING, NSW 2121 (02) 8752 9000 (02) 8752 9099 Reception@sumitomo-chem.com.au		
Emergency telephone number			
Emergency telephone	1800 033 111 (Australia) 0800 734 607 (New Zealand)		
SECTION 2: Hazard(s) ident	ification		
Classification of the substance or mixture			
Physical hazards	Not Classified		
Health hazards	Not Classified		
Environmental hazards	Not Classified		
Label elements			
Hazard statements			
Other hazards			
This product does not contain any substances classified as PBT (persistent, bioaccumulative and toxic) or vPvB (very persistent and very bioaccumulative).			
SECTION 3: Composition and information on ingredients			
Mixtures			
Other ingredients deemed not to be hazardous 60-100%   CAS number: — 60-100%			

## Bacillus thuringiensis subsp. israelensis strain AM65-52

CAS number: 68038-71-1

## SECTION 4: First aid measures

#### Description of first aid measures

1-5%

General information	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.	
Inhalation	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if any discomfort continues.	
Ingestion	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Rinse mouth. Get medical attention if any discomfort continues.	
Skin Contact	No specific recommendations. Rinse with water. Get medical attention if any discomfort continues.	
Eye contact	Rinse with water. Get medical attention if any discomfort continues.	
Protection of first aiders	Use protective equipment appropriate for surrounding materials.	
Most important symptoms and	effects, both acute and delayed	
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	No specific symptoms known.	
Ingestion	No specific symptoms known. May cause discomfort if swallowed.	
Skin contact	Prolonged contact may cause dryness of the skin.	
Eye contact	No specific symptoms known. May be slightly irritating to eyes.	
Indication of any immediate m	edical attention and special treatment needed	
Notes for the doctor	Treat symptomatically.	
Specific treatments	No special treatment required.	
SECTION 5: Firefighting meas	sures	
Extinguishing media		
Suitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Special hazards arising from the	ne substance or mixture	
Specific hazards	None known.	
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.	
Advice for firefighters		
Protective actions during firefighting	Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out.	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to Australia/New Zealand Standards AS/NZS 4967 (for clothing) AS/NZS 1801 (for helmets), AS/NZS 4821 (for protective boots), AS/NZS 1801 (for protective gloves) will provide a basic level of protection for chemical incidents.	

**SECTION 6: Accidental release measures** 

Personal precautions, protective equipment and emergency procedures		
Personal precautions	No specific recommendations. For personal protection, see Section 8.	
Environmental precautions		
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground.	
Methods and material for containment and cleaning up		
Methods for cleaning up	Reuse or recycle products wherever possible. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.	
Reference to other sections		
Reference to other sections	For personal protection, see Section 8.	
SECTION 7: Handling and sto	rage, including how the chemical may be safely used	
Precautions for safe handling		
Usage precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use.	
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.	
Conditions for safe storage, including any incompatibilities		
Storage precautions	No specific recommendations.	
Storage class	Unspecified storage.	
Specific end use(s)		
Specific end use(s)	The identified uses for this product are detailed in Section 1	
SECTION 8: Exposure control	s and personal protection	
Exposure controls		
Appropriate engineering controls	No specific ventilation requirements.	
Eye/face protection	No specific eye protection required during normal use. Large Spillages: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.	
Hand protection	No specific hand protection recommended. Large Spillages: Wear protective gloves.	
Hygiene measures	Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.	
Respiratory protection	No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn.	
Environmental exposure controls	Not regarded as dangerous for the environment.	
SECTION 9: Physical and chemical properties		
Information on basic physical and chemical properties		

	2
Appearance	Granules
Colour	Light (or pale). Brown

Odour	Musty (mouldy).	
рН	pH (diluted solution): 5.4 (10% solution).	
Bulk density	0.48 kg/l	
Solubility(ies)	Dispersible in water.	
SECTION 10: Stability and reactivity		
Reactivity	There are no known reactivity hazards associated with this product.	
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.	
Possibility of hazardous reactions	No potentially hazardous reactions known.	
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.	
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.	
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.	
SECTION 11: Toxicological int	formation	
Information on toxicological ef	fects	
Toxicological effects	Not regarded as a health hazard under current legislation.	
Acute toxicity - oral Notes (oral LD∞)	LD₅₀ >5,000 mg/kg, , Rat	
Acute toxicity - dermal Notes (dermal LD₅₀)	LD₅₀ >5,000 mg/kg, , Rat	
Acute toxicity - inhalation Notes (inhalation LC <sub>50</sub> )	LC₅₀ >2.84 mg/L (highest attainable conc.) , , Rat, (4 h)	
Skin corrosion/irritation Animal data	Slightly irritating. (Rabbit)	
Serious eye damage/irritation Serious eye damage/irritation	Slightly irritating. (Rabbit)	
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.	
Skin sensitisation Skin sensitisation	Not sensitising. (Guinea pig)	
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.	
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.	
IARC carcinogenicity	None of the ingredients are listed or exempt.	

Reproductive toxicity		
Reproductive toxicity - fertility	Based on available data the classification criteria are not met.	
Reproductive toxicity - development	Based on available data the classification criteria are not met.	
Specific target organ toxicity - single exposure		
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.	
Specific target organ toxicity - repeated exposure		
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.	
Aspiration hazard Aspiration hazard	Not relevant. Solid.	
General information	No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	No specific symptoms known.	
Ingestion	No specific symptoms known. May cause discomfort if swallowed.	
Skin Contact	Prolonged contact may cause dryness of the skin.	
Eye contact	No specific symptoms known. May be slightly irritating to eyes.	
Route of exposure	Ingestion Inhalation Skin and/or eye contact	
Target Organs	No specific target organs known.	
SECTION 12: Ecological information		
SECTION 12: Ecological infor	mation	
SECTION 12: Ecological infon	mation Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.	
	Not regarded as dangerous for the environment. However, large or frequent spills may have	
Ecotoxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.	
Ecotoxicity Toxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.	
Ecotoxicity Toxicity Acute aquatic toxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only.	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout)	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u>	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout)	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u>	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout) LC <sub>50</sub> , 48 hour: >50 mg/l, Daphnia magna	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u> Persistence and degradability	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout) LC <sub>50</sub> , 48 hour: >50 mg/l, Daphnia magna	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u> Persistence and degradability <u>Bioaccumulative potential</u>	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout) LC <sub>50</sub> , 48 hour: >50 mg/l, Daphnia magna The degradability of the product is not known.	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u> Persistence and degradability <u>Bioaccumulative potential</u> Bioaccumulative Potential	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout) LC <sub>50</sub> , 48 hour: >50 mg/l, Daphnia magna The degradability of the product is not known.	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u> <u>Persistence and degradability</u> <u>Bioaccumulative potential</u> <u>Bioaccumulative Potential</u> <u>Mobility in soil</u>	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout) LC <sub>50</sub> , 48 hour: >50 mg/l, Daphnia magna The degradability of the product is not known. No data available on bioaccumulation.	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u> <u>Persistence and degradability</u> <u>Bioaccumulative potential</u> <u>Bioaccumulative Potential</u> <u>Mobility in soil</u> Mobility	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout) LC <sub>50</sub> , 48 hour: >50 mg/l, Daphnia magna The degradability of the product is not known. No data available on bioaccumulation.	
Ecotoxicity Toxicity <u>Acute aquatic toxicity</u> Acute toxicity - fish Acute toxicity - aquatic invertebrates <u>Persistence and degradability</u> <u>Persistence and degradability</u> <u>Bioaccumulative potential</u> <u>Bioaccumulative Potential</u> <u>Mobility in soil</u> <u>Mobility</u> <u>Other adverse effects</u>	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. Based on available data the classification criteria are not met. Data for active ingredient only. LC <sub>50</sub> , 96 hour: >370 mg/l, Oncorhynchus mykiss (Rainbow trout) LC <sub>50</sub> , 48 hour: >50 mg/l, Daphnia magna The degradability of the product is not known. No data available on bioaccumulation. No data available.	

General information	The generation of waste should be minimised or avoided wherever possible. This material and its container must be disposed of in a safe way.
Disposal methods	Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

### **SECTION 14: Transport information**

General

Not a dangerous good for transport by Road and Rail according to ADG 7 code

### UN proper shipping name

Not applicable.

SECTION 15: Regulatory information

#### Inventories

## Australia - AICS

Not applicable

#### SECTION 16: Any other relevant information

Training advice	Only trained personnel should use this material.
Revision date	24/08/2021
Revision	4
Supersedes date	17/03/2017
SDS No.	4769
