## COCKROACH GEL

Active Constituent: 20 g/kg HYDRAMETHYLNON

For the control of cockroaches, by professional pest control operators, in residential and commercial situations as per the DIRECTIONS FOR USE table.

### GENERAL INSTRUCTIONS

AMDRO Cockroach Gel is a gel bait which must be consumed by cockroaches for effectiveness. AMDRO Cockroach Gel may be used as a spot or crack and crevice treatment for the control of cockroaches in and around homes, institutional, warehousing and commercial establishments, including hospitals, laboratories, computer facilities, sewers, buses and other transport vehicles or vessels, pet shops, and zoos.

Gel placements should be at or near harborages or aggregation areas, such as cracks and crevices, corners, or areas of movement. Use locations include undersurfaces only of tables, counters, shelving, drawers, and sinks and around pipe collars, above suspended ceilings, inside electrical boxes, adjacent or under trash receptacles and carts, under and behind stoves and refrigerators, under drain plates and around electrical equipment and machines. Priority treatment areas may be identified by visual inspection of such areas listed above or aided by trapping techniques or spot flushings. Pest population reduction will be apparent within a week or less. Cockroaches become lethargic after ingesting the bait and some may be seen during daylight hours.

### APPLICATION

Remove the cap from the nozzle, touch tip to surface and apply. The bait will adhere to non-greasy or non-dusty surfaces and will remain palatable to cockroaches as long as it is visibly present. Re-capping the application tip after treatment is required to preserve bait freshness. Re-apply when bait is no longer visibly present, according to the remaining level of infestation, which is generally at a lower rate than the initial treatment. A visual inspection of bait placements is recommended at one week after the initial treatment where high infestations are being treated. Re-application should be made if the bait is visibly depleted. Numerous smaller placements will provide faster control than few larger spots, especially for German cockroach control.

### INSECTICIDE RESISTANCE WARNING

For insecticide resistance management **GROUP 20A INSECTICIDE**  
AMDRO Cockroach Gel is a Group 20A Insecticide. Some naturally occurring insect biotypes resistant to AMDRO

Cockroach Gel and other Group 20A Insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if AMDRO Cockroach Gel or other Group 20A Insecticides are used repeatedly. The effectiveness of AMDRO Cockroach Gel on resistant individuals can be significantly reduced.

Since occurrence of resistant individuals is difficult to detect prior to use, BASF Australia Ltd accepts no liability for any losses that may result from failure of AMDRO Cockroach Gel to control resistant insects. AMDRO Cockroach Gel may be subject to specific resistance management strategies.

For further information contact your local supplier or BASF Australia Ltd.

### PROTECTION OF DOMESTIC ANIMALS

This product may be attractive to animals. Do NOT use in areas accessible to animals.

### PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Do NOT contaminate ponds, waterways or drains with the product or used containers.

### STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.

Syringe dispenser should be completely empty before disposal. Dispose of empty container by wrapping in paper, placing in a plastic bag and then in garbage. Empty containers and product should NOT be burnt.

### SAFETY DIRECTIONS

Should NOT be used in areas accessible to children. Harmful if swallowed. When using the product, wear rubber gloves. Wash hands after use. After each day's use, wash gloves.

### FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Telephone 131126 Australia-wide.

### MSDS

Additional information is listed in the Material Safety Data Sheet.

**DIRECTIONS FOR USE**

**RESTRAINTS:** Do NOT use in areas accessible to children and pets.  
 Do NOT use in exposed areas which may be washed.  
 Do NOT use near open food and food contact surfaces.  
 Do NOT use this product on or around electrical equipment due to the possibility of electrical shock.  
 Do NOT apply gel to areas which have been recently sprayed with insecticides, or spray insecticides over gel placements, as this may cause the bait to become repellent.  
 Do NOT apply to surfaces where the temperature exceeds 54°C.

Application rate is dependent on level of infestation and species to be controlled.

<b>COCKROACH SPECIES</b>	<b>APPLICATION RATE (g/m<sup>2</sup> INFESTED SURFACE AREAS)</b>	<b>APPLICATION METHOD</b>	<b>CRITICAL COMMENTS</b>
German	0.25 – 0.50	Small spots	Use the lower application rate for low to moderate infestations and the higher rate for more severe infestations.
Large, such as Australian, American, Smoky brown or Oriental	0.50 – 1.0	Larger spots	

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**CONDITIONS OF SALE:** All conditions and warranties rights and remedies implied by law or arising in contract or tort whether due to the negligence of BASF Australia Ltd. or otherwise are hereby expressly excluded so far as the same may legally be done provided however that any rights of the Buyer pursuant to non excludable conditions or warranties of the Trade Practices Act 1974 or any relevant legislation of any State are expressly preserved but the liability of BASF Australia Ltd. or any intermediate Seller pursuant thereto shall be limited if so permitted by the said legislation to the replacement of the goods sold or the supply of equivalent goods and all liability for indirect or consequential loss or damage of whatsoever nature is expressly excluded. This product must be used or applied strictly in accordance with the instructions appearing hereon. This product is solely sold for use in Australia and must not be exported without the prior written consent of BASF Australia Ltd.
