

## INSTRUCTIONS FOR USE UNDER DEEMED PERMIT – COMMERCIAL

These new instructions override any existing label instructions that may be contradictory to the new instructions and restraints.

**DO NOT** place bait stations outdoors for control of mice.

**DO NOT** use in areas accessible to non-target animals, pets or children unless secured in a tamper resistant bait station.

**DO NOT** place bait outdoors unless it is secured in a tamper-resistant and weather-resistant bait station which is secured in place.

**DO NOT** place bait stations more than 2 metres from buildings.

**DO NOT** apply this product directly into burrows.

**DO NOT** use the product continuously for more than 35 days without an evaluation of the state of the infestation and of the efficacy of the treatment.

Hazardous to wildlife. Search for and dispose of dead rodents and slugs/snails in the infested area at each visit to prevent secondary poisoning. In case slugs/snails are present, move bait station to another location within the rodent infested site, away from slugs/snails. Dispose of slugs/snails, dead rodents and uneaten bait in compliance with local, state or territory government regulations.

When using the product wear disposable gloves. During cleanup and disposal operations of bait and bait stations, wear disposable gloves. Wear disposable gloves when handling rodent carcasses. Wash clothes after performing re-handling activities.
