

EZ MEAZUR TAPE is an adhesive tape marked at regular intervals (intervals dependent upon chemical termiticide being applied) for attachment to surfaces as an aid to accurate drill placement.

### EZ Meazur is

- Simple and easy to use
- It takes care of the measurement problems that have been plaguing the industry for years
- Takes the worry out of jobs that have awkward layout
- Can be set up by labourers and drilled with minimum supervision
- Saves time and can be used in all situations
- Won't disappear under the dust from drilling like traditional chalk lines do
- Can cross check your lines are straight before drilling
- Makes the overall job look more professional to your clients who keep a keen eye on what you are doing
- Can be used with a standard 48mm tape applicator
- Comes in convenient 100 metre rolls

Yellow tape marked at 300 mm drill intervals  
 Orange tape marked at 200 mm drill intervals
