How To Use

- Use in Airomist automatic aerosol dispensers.
- Read the dispenser instructions before using the first aerosol can.
- Insect activity can be affected by air changes, general layout, temperature humidity and other factors. For effective day and night operations, it may be necessary to adjust settings for local conditions.

To Kill Most Flying Insects

1. Dispenser should be installed a minimum of two metres above the floor, preferably with a clear area between the floor and the dispenser.
2. Open and place can in dispenser.
3. Program (adjust settings) with instructions supplied with dispenser. Turn on.
