SITUATION

Agricultural Buildings
Storage sheds, milking and poultry sheds, barns, stables, kennels

Domestic and Public Service Areas
Food premises, hotels, motels, hospitals, warehouses, factories, ships, clubs, schools, shipping containers, meter boxes, telecom, electricity and gas installations

HOW TO USE
HOW TO USE For control of flying insects. Spray in one second bursts in centre of room. 1 second per 30 cubic metres of air volume.
Keep windows and doors closed for best result.
For control of crawling insects, spray into cracks and crevices and pallets and cupboards where these insects hide.
Natural pyrethrum has a flushing action causing insects to emerge from their hiding places and thus take up insecticide and die.
NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED

PRODUCT FEATURES

- Convenient 2-way nozzle
- Professional Strength actives for fast knockdown & flushing with little to no residual.
- Targets both crawling and flying
- Pyrethrin - excellent flushing and knock-down agent. Piperonyl Butoxide – synergist which enhances the pesticide properties
