Resolv gives Professional Pest Managers who have been using bromadiolone-based blocks an innovative and more effective alternative that can only be found in a Liphatech soft bait: wax-free, high palatability, no melting, durability and consistent reliability. Resolv provides superior palatability compared to traditional blocks without wasting money on the waxy filler.

PRACTICAL FEATURES

- Resolv – is easily secured inside a bait station
- High number of baits per bucket (550 sachets) allow flexible baiting
- Made without nuts and seeds to reduce debris and service time
- Maintains palatability and integrity in hot environments.
- Convenient 5.5kg rectangular bucket for optimum storage.

SAFETY FEATURES

- Resolv contains Bitrex, a bittering agent that reduces the risk of consumption by children or pets.
- Nut free formulation, means no mess, ideal for sensitive areas such as hospitals, child care centres, schools etc.

YOUR EVERY DAY RODENT BAIT

YOUR EVERY DAY RODENT BAIT

- Contains the single-feed bromadiolone, originally developed by Liphatech.
- High acceptance by rodents, even when competing food sources are available.
- Quick and easy to use, reduced treatment time for faster customer satisfaction
- Special sachet allows aroma to escape

BEST USED

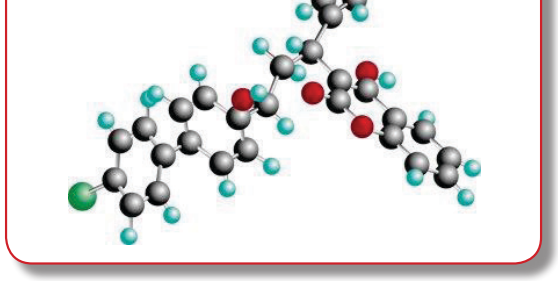

- For quick control of rats and mice.
- Ideal in highly infested areas even in highly competitive food environments.
- In commercial premises with ongoing rodent baiting programs to keep populations under control all year round.
- Registered on Black rats, Norway rats and House mice, for use in and around buildings.

Flexible - Use single or multiple sachet placements.

Easy - Quickly secure bait on vertical or horizontal rods.

BROMADIOLINE DISCOVERED BY LIPHATECH

- Bromadiolone – second generation single-feed active ingredient discovered by Liphatech.
- Most widely used active ingredient globally.
- Vitamin K1 is an effective antidote in case of non-target poising.

Irresistible - No wax and enticing aroma for a better acceptance by rodents.

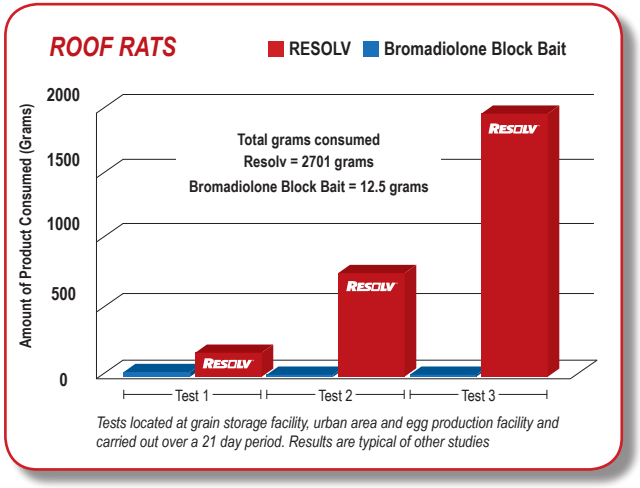

Integrity - Doesn't melt in hot conditions. Testing was conducted in an oven at 93ºC for 8 hours.

A REVOLUTION IN RODENT TECHNOLOGY

- Liphatech, the Soft Bait Innovators™ brings you the latest development in rodent control.
- 10 gram sachet: flexible dosing through single or multiple sachet placements.
- Wax-free and contains food grade oils and grains increasing attractiveness and palatability for quicker uptake.
- Aroma escapes through sachet to attract rodents and encourage feeding.

RESOLV PALATABILITY STUDY

Tests located at grain storage facility, urban area and egg production facility and carried out over a 21 day period. Results are typical of other studies

- Easily identify if rats or mice are eating the bait based on feeding patterns.
- Bittering agent added to help avoid accidental consumption.
- No melting. Resolv can take temperatures up to 93°C.
