# TEMPRID®75

# Does it better.

## Better residual effect.
Provides at least 10 x more residual* efficacy than competition.

## Better knock-down.
Providing at least 2 x faster knockdown* than competition.

## Better flexibility.
Can be used indoors and outdoors on a wide variety of pests.

## Better chemistry.
HAS™ technology.

HAS (Homogenised Active Synergy) combines both actives via a unique milling process which defines precise tolerances to ensure the optimum particle size. This ensures that the two actives work together to maximum effect.

HAS™ TECHNOLOGY

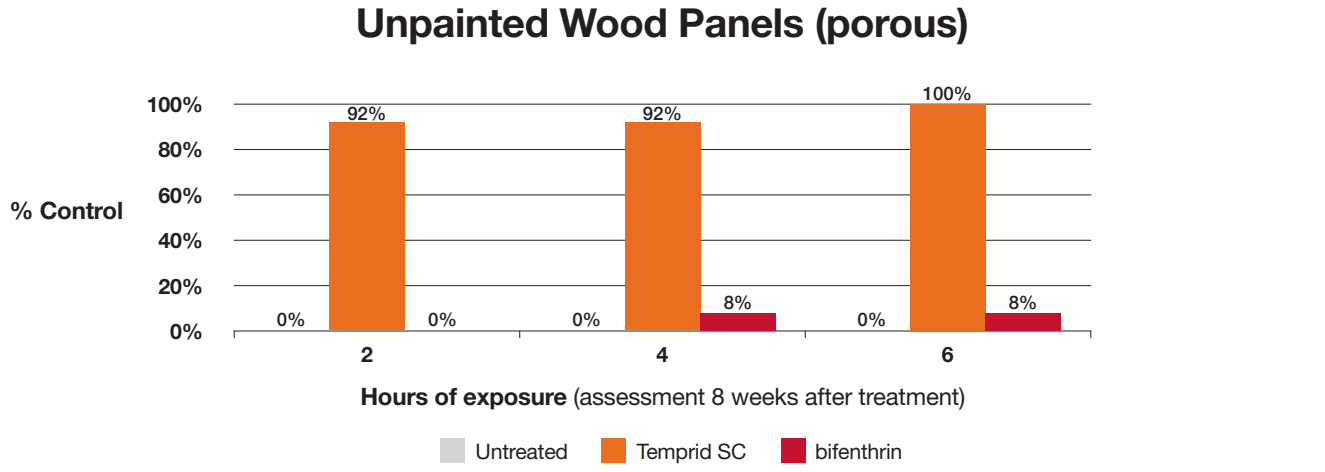

*Bayer data on file.
