

CAT-SS10P-CFB

Safestore Tribolium
(Easy Read)

Safestore is a modular system designed to target and monitor stored product insects. Each pitfall trap is pre-baited with Tribolium in order to target the Flour Beetle.

- Early warning to potential infestations.
- Simple and ready to use traps.
- Non-toxic and pesticide-free making them safe for use in food handling facilities and around children and pets.
- Maintains a stable and long release of Tribolium over a period of 4-6 weeks.
