

CAT-F10

Wasp and Fly Trap

Get rid of those annoying wasps and flies in your garden and other outdoor areas.
The Russell IPM Wasp and Fly Catcher is a robust and weatherproof trap made of two parts. It is re-usable and may be used over several seasons.

- Effective against wasps, houseflies, stable flies, fruit flies other fly species.
- Very effective in trapping wasps without the need for toxic chemicals.
- Operates around the clock with a minimal service requirement.
- Easily cleaned and reused from season to season, making them a cost-effective solution when compared to other monitoring devices on the market.
