Delta Trap Lures

Yellow, Blue, Green & Red

- Suitable for a range of species, removing the need for multiple traps to save you time and money.
- Long life lure is cost-effective and highly attractive to a wide range of stored product flying insects.
- Simple and easy to use with a different colour for each season, reducing the number of lure changes to just four times a year.
- The system is designed to slowly release pheromones at a steady rate over a period of 13 weeks.
