DIRECTIONS FOR USE

RESTRAINT
Do NOT place in areas that are routinely washed.

SITUATION	PEST	RATE	CRITICAL COMMENTS
Domestic, Commercial and Public Service Buildings	German and other Common cockroaches.	Apply 1-3 spots per m^2. Recommended spot size is 0.25 - 0.5 g. Increase the number of spots (up to 3) and spot size depending upon severity of infestation and species present.	Gel placement should be at or near areas where cockroaches gather, such as in cracks and crevices.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS
To apply the gel, remove the cap on the nozzle and touch the tip to the surface to be treated and depress plunger slightly. Recap the dispenser after treatment is completed and return cartridge to the outer pack. Re-apply according to remaining level of infestation, when bait is no longer visibly present. A visual inspection of gel placements is recommended one month after initial treatment.

INSECTICIDE RESISTANCE WARNING
GROUP 4A INSECTICIDE

For insecticide resistance management SECLIRA GEL COCKROACH BAIT is a Group 4A insecticide. Some naturally occurring insect biotypes resistant to SECLIRA GEL COCKROACH BAIT and other Group 4A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if SECLIRA GEL COCKROACH BAIT or other Group 4A insecticides are used repeatedly. The effectiveness of SECLIRA GEL COCKROACH BAIT on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, BASF Australia Ltd accepts no liability for any losses that may result from failure of SECLIRA GEL COCKROACH BAIT to control resistant insects. For further information on managing insecticide resistance contact your local supplier or BASF Australia Ltd representative.

PRECAUTIONS
DO NOT apply directly to food, food utensils, food packaging or food preparation surfaces.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT
Very toxic to aquatic organisms. Do NOT contaminate streams, rivers or waterways with the chemical or used containers. Do NOT apply this product in any areas easily accessible to children or animals.
