DO NOT use on surfaces which come in direct contact with the ground

SITUATION	RATE	CRITICAL COMMENTS
Preventive use For termites, borers and other insects on timber, masonry, brickwork, concrete	0-25 mm depth: 125 mL/m^2 25-50 mm depth: 250 mL/m^2 50-100 mm depth: 500 mL/m^2 Internal treatment: 5 mL/1000 cubic cm	Apply product by brush, roller, dipping or spraying

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS
Allgon Timber Treatment for Borers and Termites is supplied ready to use as a preventive treatment as shown in the directions for use.

When treating very dry surfaces, the treatment will be enhanced if the surface can be sprayed with water 3 to 4 hours prior to applying Allgon Timber Treatment for Borers and Termites.

For severe infestations, apply two coatings of Allgon Timber Treatment for Borers and Termites 3 hours apart.

To assist in the internal penetration of larger sections of timber structures, drill into the sections every 600 mm with a 5-20 mm diameter hole. Fill with Allgon Timber Treatment for Borers and Termites and stop up ends. When treating surfaces which may be exposed to rain, it may be necessary to seal all surfaces with a suitable sealant.

SAFETY DIRECTIONS

Will damage eyes. Will irritate nose, throat and skin. Repeated exposure may cause allergic disorders. Avoid contact with eyes and skin. Do not inhale spray mist. When opening the container, preparing the product and using the prepared product, wear cotton overalls buttoned to the neck and wrist and a washable hat, elbow length PVC gloves and goggles. If product on skin immediately wash area with soap and water. If product in eyes wash it out immediately with water. Wash hands after use. After each day's use wash gloves, goggles and contaminated clothing.
