

CAT – XLINP-IMM/CB

XLure-RTU

Inspector Prebaited Trap

The small but effective crawling insect monitor

- Simplifies the monitoring process to deal with pest problems in a timely manner.
- Compact and discrete for tight places.
- Pre-baited to release a low level of pheromones so that a large number can be places over a small area.
- Simple and easy to use saving you time and effort.
- Suitable for hanging or to be secured to various surfaces to capture a range of insects.
