Product Name: CLEAROUT PLUS IGR AEROSOL INSETICIDE
APVMA Approval No: 88298/126104

Label Name:	CLEAROUT PLUS IGR AEROSOL INSECTICIDE
Signal Headings:	READ SAFETY DIRECTIONS
Constituent Statements:	0.5 g/kg FIPRONIL 0.15 g/kg PYRIPROXYFEN Propellant: Hydrocarbons
Mode of Action:	GROUP 2B 7C INSECTICIDE
Statement of Claims:	For the control of ants, cockroaches and flies in domestic, commercial and public buildings
Net Contents:	100 - 500 grams
Restraints:	RESTRAINT DO NOT apply if heavy rains are expected to occur within 48 hours of application. For professional use only.
Directions for Use:	This section contains file attachment.
Other Limitations:	
Withholding Periods:	
Trade Advice:	

General Instructions:	

Resistance Warning:	Insecticide Resistance Warning GROUP 2B, 7C INSECTICIDE For insecticide resistance management, Clearout Plus IGR Aerosol Insecticide is both a Group 2B and 7C insecticide. Some naturally occurring insect biotypes resistant to Clearout Plus IGR Aerosol and other Group 2B and 7C insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Clearout Plus IGR Aerosol Insceticide or other Group 2B and 7C insecticides are used repeatedly. The effectiveness of Clearout Plus IGR Aerosol Insecticide on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Sherwood Chemicals Australasia Pty Ltd accepts no liability for any losses that may result from the failure of Clearout Plus IGR Aerosol to control resistant insects. Clearout Plus IGR Aerosol Insecticide may be subject to specific resistance management strategies. For further information contact your local supplier or Sherwood Chemicals Australasia Pty Ltd representative.

Precautions:	PRECAUTIONS Do not use as a space spray. Do not spray directly onto humans, pets, exposed foods, food utensils or food preparation surfaces. Remove or cover fish tanks before spraying. Remove pets from rooms before and for a short time after treatment. Care should be taken not to spray delicate fabrics or furnishings and plastic surfaces without prior testing.

Protections:	PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT Very toxic to aquatic life. DO NOT contaminate wetlands or watercourses with this product or used containers. PROTECTION OF HONEY BEES AND OTHER INSECT POLLINATORS Harmful to bees. DO NOT use near bees.

Storage and Disposal:	STORAGE AND DISPOSAL Keep out of reach of children. PRESSURISED DISPENSER, PROTECT FROM SUNLIGHT AND DO NOT EXPOSE TO TEMPERATURES EXCEEDING 50°C. DO NOT PUNCTURE OR INCINERATE THIS CAN, EVEN WHEN EMPTY. Dispose of can by putting in the garbage or leaving it at an appropriate metal recycling collection point.

Safety Directions:	SAFETY DIRECTIONS Will damage eyes and may irritate the skin. Avoid contact with eyes and skin. DO NOT inhale spray mist. When using the product wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), elbow-length PVC gloves and face shield or goggles. Ensure adequate ventilation during use. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use wash; gloves and face shield or goggles.

First Aid Instructions:	FIRST AID If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126; New Zealand 0800 764 766. If in eyes wash out immediately with water. If sprayed on skin, wash thoroughly. If sprayed in mouth, rinse mouth with water.

First Aid Warnings:	

DIRECTIONS FOR USE

Shake can well before use. Hold can upright while spraying and hold about 15 to 20 cm from the surface to be sprayed. Avoid using on plastic surfaces.

Clearout Plus IGR Aerosol Insecticide, when used according to directions, will give effective residual control of ants and cockroaches, and short term control of flies, in situations such as domestic, public service, industrial and commercial areas.

Pest	Critical Comments
Ants Cockroaches	For residual control, spray as a surface application up to but not exceeding the point of run off onto surfaces and into cracks and crevices where insects are likely to rest, harbour, live and breed. Use the crack and crevice extension tube to direct spray into cracks, crevices and other hard to reach places. Clearout Plus IGR Aerosol Insecticide can also be applied directly as a spot treatment to live insects.
House flies	Apply to surfaces where flies are likely to rest. For outdoor fly control, apply to surfaces where flies tend to be a nuisance. Apply spray up to but not exceeding the point of run off. Clearout Plus IGR Aerosol Insecticide can also be applied directly as a spot treatment.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISTRATION
