General Instructions:	

Precautions:	PRECAUTION: DO NOT allow bait to contaminate foodstuffs or food intended for human or animal consumption. Do not apply bait to crops. Place baits in locations which are inaccessible to other animals and birds. This product is hazardous to pigs, cats, dogs, native wildlife and poultry.

Protections:	PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

	DO NOT contaminate streams, rivers or waterways with the chemical or used containers. Place baits in locations inaccessible to animals other than target animals. The product is restricted to use in and around buildings (within 2 metres) or enclosed spaces.

Storage and Disposal:	STORAGE AND DISPOSAL: Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers and product. Dispose of carcasses safely by burning or burying in an approved landfill.

Safety Directions:	SAFETY DIRECTIONS: Poisonous if swallowed. Do not inhale dust. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with eyes and skin. Do not touch bait. Use scoop or measure. If on skin and after each baiting, wash thoroughly with soap and water.

First Aid Instructions:	If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126. Vitamin K1 (PHYTOMENADIONE) is antidotal.

First Aid Warnings:	

DIRECTIONS FOR USE

SITUATION	PEST	RATE	CRITICAL COMMENTS
Apply where pests occur in and around industrial, commercial, agricultural and domestic buildings.	Rats	150g per bait tray	Put measured quantity of bait in suitable containers, ie bait trays. Protect baits from water where possible. BAITING STRATEGY: Eliminate as far as practicable, all alternative food sources. Bait infested area. Place baits under cover. Inspect baits daily. Replace eaten baits. If eaten quickly, increase number of baits. Continue observation and replenishment until no more baits are taken. Baiting for 2 weeks is necessary to reduce rat/mouse numbers.
	Mice	50g per bait tray	

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

The use of this product for the control of protected native rodents requires permission from wildlife authorities.
