Bird Jolt Flat Track™

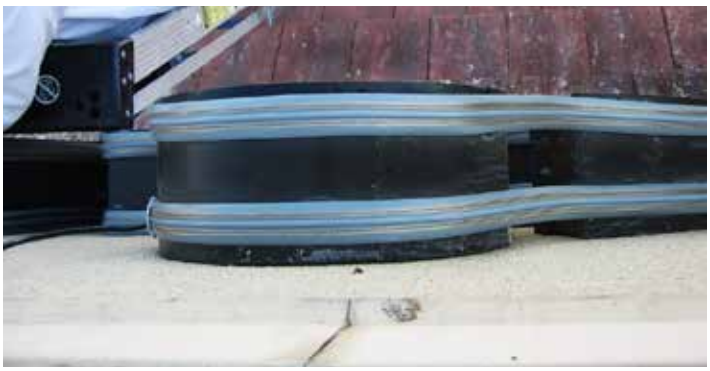

Patented US7802396 US7939885 US8020340
US8015747 US8196341 US8286341 US8407932
US8615922 US8196340 US8424238 US8733014

6 Standard Colors

Clear	Red	Stone	Black	Gray	Terracota

Bird Species	All birds
Where to Use	Ledges, signs, rooftops, I-beams, parapet walls, conduit, flat or curved surfaces
Material	Lightweight flexible UV stabilized PVC with knitted wire mesh “tube-in-tube” design
Bird Pressure	Light to Heavy

Bird Jolt Flat Track™ is completely flexible and conforms to any surface. Bird Jolt Flat Track™ is a low profile, electric track system that produces a mild electrical jolt when birds land on its surface. The system will not harm birds, but will condition them to avoid the area.

Advantages & Benefits

- Humane, does not harm birds
- Patented “Anti-Arcing” design prevents track short-outs and is the ultimate in safety
- Completely flexible, can conform to any surface
- Effective for both small and large pest birds
- Powered with an electric or solar charger
- Super light - 100’ kit weighs only 16 pounds
- Low profile and virtually invisible...only 1/4” tall
- “Snug-Fit” Connectors make it the easiest shock system to install
- T-connectors available

- The ultimate in behavior modification
- The copper mesh is resistant to corrosion
- “Tube in tube” design for better conductivity

Bird Jolt Flat Track™ is the only electric track bird deterrent system with patented anti-arcing and glue trough designs, providing the ultimate in safety and functionality!

To install: Bird Jolt Flat Track™ easily glues in place with construction grade adhesives. Installation requires general knowledge of electrical systems. If you have questions or need an Authorized Installer call us at 1-800-392-6915.
