Wheelie Bins

The spill kit on wheels - ready to be taken to the action. Ideal for factories or workshops where the potential emergency spill may occur, and where they may be some distance apart. Each kit is carefully packed with PPE and the appropriate absorbents to contain and absorb a spill up to the size stated (depending on the viscosity of the fluid). These come in two varieties - the premium and the standard ranges. The premium kit is guaranteed to absorb 120 litres of liquid. Protection covers are also available to keep spill kits clean and protected from the weather.
