Flowable TMTD®

General Instructions:
Premix the required quantity with water and add to spray tank with agitation system operating. Agitate while spraying.
The addition of Ultrawet wetting agent at a rate of 10mL/100 litres will improve coverage.
Do not mix with lime sulphur or Bordeaux sprays.
Turf should be in good nutritional condition before treatment otherwise some damage may occur to sensitive turf species (eg. Fescues, bluegrass, turf type ryegrasses), if repeat applications are made too soon.

Resistance Warning

GROUP	M3	FUNGICIDE

For fungicide resistance management Flowable TMTD is a Group M3 fungicide. Some naturally occuring individual fungi resistant to Flowable TMTD and other Group M3 fungicide may exist through normal genetic variability in any fungal population. The resistant individuals can eventually dominate the fungi population if these fungicides are used repeatedly. These resistant fungi will not be controlled by Flowable TMTD and other Group M3 fungicides, thus resulting in a reduction in efficacy and possible yield loss. Since the occurance of resistant fungi is difficult to detect prior to use Colin Campbell (Chemicals) Pty. Ltd accepts no liability for any losses that may result from the failure of Flowable TMTD to control resistant fungi

Protection of Livestock:
Do Not graze treated turf or feed grass-clippings from treated area to animals or poultry.

Protection of Wildlife, Fish, Crustacea and Environment
Dangerous to Fish. Do not contaminate ponds, waterways, irrigation channels or drains with this product or used container.

Storage and Disposal:
Store in the closed original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury containers in a local authority landfill. If no landfill is available, bury the container below 500 mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

Safety Directions:
May irritate the eye, nose and throat, and skin. Avoid contact with eyes and skin. Do not inhale spray mist. Wash hands after use.

First Aid:
If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126; New Zealand 03 4747000. Avoid giving alcohol.

For further information refer to the Material Safety Data Sheet (MSDS 15).
