

Xlure Inspector

Discreet monitoring trap, pre-baited with multiple pheromones. The trap can fit in tight spaces and transit vehicles, such as cargo ships and trains, as well as in food storage and processing facilities.

Benefits

- Monitors multiple insects, reducing labour costs of handling individual pheromone dispensers.
- Precision dosed pheromone incorporated into glue for insect attraction
- High quality cardboard
- Insecticide free and non-toxic
- Small, compact trap size for use in areas where monitoring should be inconspicuous
- Can be used to monitor specific areas of infestations e.g., focused monitoring around equipment and machinery
- Ready to use, simple to apply and disposable
- Can be suspended using the tab at the top, or secured to surfaces using the double-sided tape on the back of the trap

Target insects

Indian meal moth
Plodia interpunctella

Mediterranean flour moth
Ephestia kuehniella

Tropical warehouse moth
Ephestia cautella

Tobacco moth
Ephestia elutella

Cigarette Beetle
Lasioderma serricorne

Russell IPM
INTEGRATED PEST MANAGEMENT

Where to use

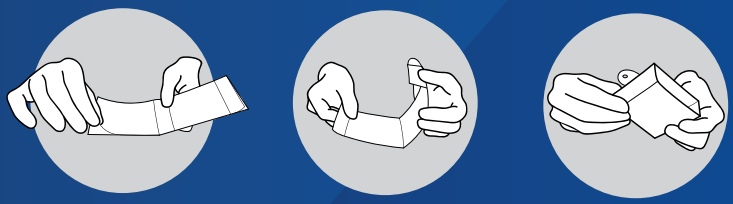

Pantries, grocery stores, supermarkets, pet stores and pet food areas, food processing plants, food storage and warehouses, freight trailers, freight containers and water cargo carriers.

Application method

Assembly
Remove the protective release liner covering the glue area and fold the trap into the box shape.

Where to place/distance

- Place in areas of suspected or previous infestation. In an open area, one trap every 25 metres square is sufficient.
- The **Xlure RTU Inspector** can be placed in small crevices that other traps cannot fit into e.g. between goods on a pallet. Add extra traps to pinpoint infestations.
- The traps can be suspended using the tab at the top, or secured to surfaces using the double-sided tape on the back of each trap

Replacement
Replace every 6-8 weeks, or earlier if the trap becomes full.

Storage

The traps should be stored in their sealed foil packaging, in a cool dry place, for a shelf life of 12 months. If longer storage is required, store in a fridge or freezer.

Product code

CAT-XLINP-IMM/CB	Xlure RTU Inspector pre-baited traps for food moths and cigarette beetle.	Box of 100
