

Snap'Em Tabs

Designed for simple and clean rodent attraction, the four flavours of the **Snap'Em** tabs are a non-toxic solution to effective rodent monitoring. The unique shape of the Snap'Em tabs allow for secure insertion into the socket of most snap traps.

Benefits

- Four flavours available for specific pest control needs
- Rodenticide free and non-toxic
- Quick and cost effective solution to baiting snap traps
- Quick to attract both rats and mice, including bait shy rodents
- Clean and simple application into most snap traps
- Can be used all year round, indoors and outdoors as part of a simple or complex monitoring programme
- No risk to wildlife or pets

Target pests

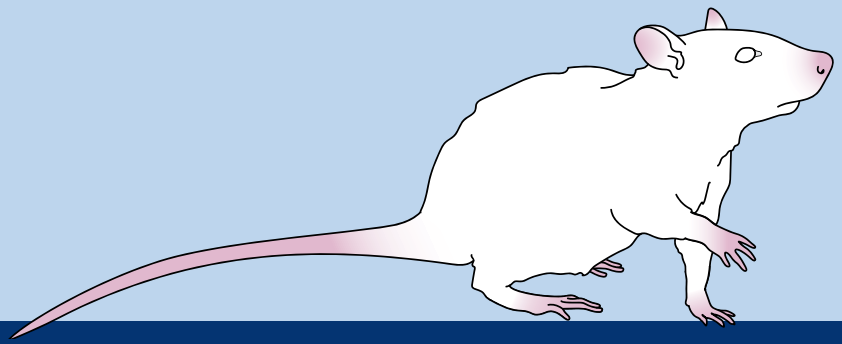

House mouse
Mus musculus

Black rat
Rattus rattus

Brown rat
Rattus norvegicus

Where to use

Food processing and storage facilities, factories, warehouses, offices, schools, hospitals, hotels and restaurants.

Application method

Assembly
Take the tab out of the packet and place in the socket of your chosen snap trap.

Where to place/distance
Do not apply into a trap where toxic bait is present or use with other food attractants. Place the trap with the lure close to where rodent infestation is suspected or where recommended as part of a monitoring programme.

Replacement
Replace lure every 4-6 weeks.

Storage

Store lure in a cool dry place for a shelf life of 24 months.
