Directions:

ProFoam Platinum provides a unique blend of foaming agents for the transport of all types of products to areas such as: drains, wall voids and other areas requiring complete treatment of all vertical and horizontal surfaces. Follow all mixing instructions on chemical manufacturer's label, adding ProFoam as directed. User must complete any equipment and other calibration steps that may be required to ensure proper coverage. *ProFoam* rates will vary depending on chemical and equipment used. For use in food plants such as in drains, voids and other areas needing complete treatment of all vertical and horizontal surfaces. Food contact surfaces are to be rinsed with potable water before reuse. Not for aquatic, feed crops or food use.

EQUIPMENT INFO: *ProFoam* was designed for the NPD Universal Soldier line of equipment but will also work in other foam generators. *ProFoam* may be metered through in-line injection devices such as venturi and proportional injectors. Each of these dispensing systems use different technology Contact your equipment manufacturer for detailed instructions.

MIXING GUIDELINES:

ADD FOAMING AGENT AS FOLLOWS

To Achieve Low Expansion	1/2 to 1 1/2 oz. / gal.
1 - 7 to 1	(4 mls. to 12 mls. / liter)
To Achieve High Expansion	1 1/2 to 9 oz. / gal.
8 - 20 to 1	(12 mls. to 71 mls / liter)

Expansion rates will vary depending on water pH, temperature and product used.

CAUTION: Avoid eye and skin contact. Keep out of reach of children. In case of contact in eyes or skin, immediately flush with water for at least 15 minutes. If irritation persists get medical attention. If swallowed, **DO NOT INDUCE VOMITING. CONTACT PHYSICIAN IMMEDIATELY.**
