Termite Management Systems

TERM-seal™

EZY-COLLAR

Penetration Collar

Click, slide, adjust

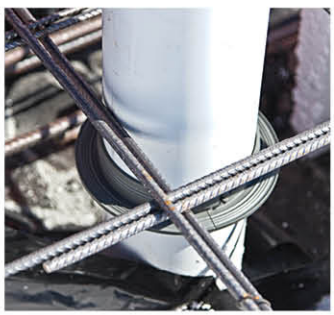

It's that EZY

TERM-seal™ EZY-Collars provide a termite and moisture proof seal where concrete slabs have been penetrated to accommodate services and are complimentary to our rigid TERM-seal™ Penetration Collars.

Available to fit 100mm pipes initially, with 80mm and 50mm to follow. TERM-seal™ EZY-Collars are installed in conjunction with TERM-seal™ Sealant Active to prevent concealed access for termites and creates a waterproof gasket.

In some instances a concreter will pour the slab without any termite protection to the service penetrations, we have a solution for these problem jobs also – contact your TERMSEAL REPRESENTATIVE.

PRODUCT OVERVIEW

Available for:- 100mm pipes
