stamina® 90
THE LONG TERM NON-BURN WETTING AGENT

DIRECTIONS FOR USE

Apply Stamina® 90 as required but efficacy is long term.

APPLICATION RATES

Situation	Rate/100m²	Rate/Ha	Comments
Preventative application of Localised Dry Spot in Sportsfields and Fairways	250-500mL	25-50L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure product effectiveness. Repeat treatments at the desired application frequency.
Preventative application of Localised Dry Spot in Greens and Tees	250-500ml	25-50L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure product effectiveness. Repeat treatments at the desired application frequency.
Curative application of Localised Dry Spot (Green, Tees, Fairways and Sportsfields)	500mL	50L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure rapid hydration of the profile. Repeat applications fortnightly and continue as required until recovery occurs.
Dew control	250-500ml	25-50L	Application of Stamina® 90 on the day or one day prior to the event will help prevent dew formation. Application of Stamina® Rescue at 500mL per 100sq. m every 7-10 days will be required for long term dew formation. Although irrigation is not essential, for best results, irrigate following application with 4-6mm of water.

TANK MIX FLEXIBILITY

Tank mix combinations with Stamina® 90 have not been tested on all varieties under all possible growing conditions. If the user is unsure a limited area should be tested and reasonable judgement and caution should be exercised. A jar test is recommended prior to broad scale use.

STORAGE AND DISPOSAL

Store in original containers and dispose of empty containers in accordance with local law.

PRECAUTIONARY STATEMNTS

Always consult the Material Safety Data sheet (MSDS) for specific instructions. Keep out of reach of children. Users are cautioned to take reasonable safety precautions when handling and applying this product.

FIRST AID

Eye Contact: DO NOT rub eyes. Immediately flush eyes with water. Seek medical attention if necessary.
Skin Contact: Remove contaminated clothing and immediately wash affected area for at least 5 minutes. If redness or irritation persists, seek medical attention as needed.
If Swallowed: Give large amounts of water.
