stamina® express

DUAL ACTION THATCH AND SOIL PENETRANT

CONTENTS

- ☐ 20 Litres
- ☐ 200 Litres
- ☐ 1000 Litres

ACTIVE INGREDIENTS:
40% blend of proprietary surfactants, 60% inert ingredient

Stamina® Express is a dual action thatch and soil penetrant. Fast penetration ensures optimal water use limiting the amount lost through evaporation and run off. An added component has the ability to allow hydrophobic soils to be rewet and dry patch to be prevented.

stamina® express

DUAL ACTION THATCH AND SOIL PENETRANT

DIRECTIONS FOR USE

Stamina® Express is ideally applied each time that water is applied onto the turf surface. Minimum applications are required on a monthly applications basis.

APPLICATION RATES

Situation	Rate/100m²	Rate/Ha	Comments
Injection (Fairways and Sportsfields)	20-50mL	2-5L	To ensure optimal water usage, apply Stamina® Express monthly or as necessary. The greater the frequency of application the greater the water use efficiency.
Boom Spray	50mL	5L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure product effectiveness. Repeat treatments at the desired application frequency.
Pesticide and Fertiliser Placement	20-50mL	2-5L	To ensure optimal placement of soil targeted pesticides and fertilisers tank mix Stamina® Express. Irrigation is not critical but is recommended to ensure product effectiveness.

TANK MIX FLEXIBILITY

Tank mix combinations with Stamina® Express have not been tested on all varieties under all possible growing conditions. If the user is unsure a limited area should be tested and reasonable judgement and caution should be exercised. A jar test is recommended prior to broad scale use.

STORAGE AND DISPOSAL

Store in original containers and dispose of empty containers in accordance with local law.

PRECAUTIONARY STATEMNTS

Always consult the Material Safety Data sheet (MSDS) for specific instructions. Keep out of reach of children. Users are cautioned to take reasonable safety precautions when handling and applying this product.

FIRST AID

Eye Contact: DO NOT rub eyes. Immediately flush eyes with water. Seek medical attention if necessary.
Skin Contact: Remove contaminated clothing and immediately wash affected area for at least 5 minutes. If redness or irritation persists, seek medical attention as needed.
If Swallowed: Give large amounts of water.
