Biflex ULTRA

LO ODOUR TERMITICIDE & INSECTICIDE

THE ULTIMATE TERMITICIDE

Product description

Group 3A Insecticide

Biflex Ultra-Lo-Odour is a cost effective, broad spectrum, long residual, liquid insecticide and termiticide for use as an external treatment of a wide range of pests. The dual action of Biflex Ultra will kill and repel subterranean termites making it ideal for long term pre-construction and post-construction termite control and protection. Its unique EC formulation is non-staining, practically odourless, non sensitizing and non-allergenic giving user and client comfort without sacrificing its efficacy or longevity.

Where to use

Biflex Ultra-Lo-Odour is registered for the control of all Australian subterranean termite species through a variety of application techniques which include trenching, rodding, reticulation and spraying. It is ideal for long term pre and post construction treatments as well as for nest eradication and the protection of poles and fence posts.

In addition Biflex Ultra can be used as an external treatment for a large number of common general household pests.

This product is ideal for use in domestic, commercial, public and industrial buildings and structures.

It is an approved AQIS product for category 16 as a Type D pesticide.

Features

- **Dual action "kills and repels termites"**
- **Proven performance of over 10 years under Australian conditions**
- **Longest registered termite protection period in Australia***
- **Ultra-Lo-Odour, non-staining, non-irritant**
- **Targeted control – does not move in the soil**
- **Applicator and client friendly**
- **Broad spectrum multi-insecticide**
- **Fast knockdown with long residual**
- **FMC quality assured**
- **Available in 20L and handy 5L packs**
- **Cost effective**
- **Flexible, suits most applications and situations**
- **Australian made**
