IMPORTANT: RESTRICTED CHEMICAL PRODUCT ONLY TO BESUPPLIED TO, OR USED BY AN AUTHORISED PERSON

DISPLAYED BY INFOPEST

Contents: 260 g / 520 g

DIRECTIONS FOR USE (All states except TAS)
Restraints:
Do not use for remedial treatment of pre-existing termite infestations

Pest	Situations	Rate	Critical Comments
Subterranean termites except *Mastotermes darwinensis*	Domestic, commercial, and industrial structures - approved to be used in conjunction with HomeGuard sheet products to form a bond to join sheets together. Also to adhere HomeGuard sheet products to other structural components (eg. timber, concrete, tiles, steel etc). Can be used in various situations where by a Termiticidal sealant/adhesive will assist in the prevention of concealed termite entry into a structure.	A single continuous bead applied between two surfaces will create a bond (and/or seal) with Termiticidal activity when used in accordance with product instructions.	Application of the adhesive/sealant as per the below steps can assist in the management of termites by preventing termites passing through a gap completely and continuously sealed using this product. 1. Surface must be clean, dry, free from dust, loose particles and soap residues. If required clean with turps. 2. Cut cartridge tip at 45° from 4-6mm in diameter 3. Apply firmly onto surface or into joint by pushing sealant ahead of nozzle, making a thick continuous bead. 4. If necessary, smooth sealant immediately with tool dipped in turps. Refer to the HomeGuard Product Manual for further installation instructions.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Product information
This product is not suitable for use as a standalone termite management system for an entire structure. HomeGuard sheeting products (DPC, Blue and TMB) when used in conjunction with HomeGuard Collars and HomeGuard GT are intended for use as a complete Termite Management System.

Caution: Use only in well ventilated areas.

APPLICATION
Cut the seal at the top of the cartridge. Cut the nozzle end to desired opening (approx. 5mm diameter). Fit to the top of the cartridge.

Drying Time: Skins immediately, maximum toughness achieved over several days.

Clean Up: Turps. Remove dried sealant from skin by gently rubbing with petroleum jelly.

Notes: May damage some plastics e.g. polystyrene, polycarbonate. Not for permanent water emersion. When cold, store at room temperature for easier use.

Storage and Disposal
Store in closed original packaging, in a cool, well ventilated dry area away from children, animals, food and feedstuffs. Do not allow cartridges or packing to get wet. Do not store for prolonged periods in direct sunlight. Do not store HomeGuard Termiflex in high temperature areas such as utility boxes or tool boxes that are subject to direct sunlight. If this product is exposed to high storage temperatures it may ruin the integrity of the cartridge and/or plunger. Dispose of empty cartridge by wrapping in paper, placing in a plastic bag and putting in garbage.

Protection of Wildlife, Fish, Crustacean and the Environment
