Controlled Release

SF35 Purple - all round fertiliser

For Balanced Growth and Fruiting

- Durable under Extreme Conditions
- Suited for Light to Heavy Soils
  plus Coastal & Saline Environments
- Contains Beneficial Biology
- Australian Made

Available in 25Kg, 1ton bulka bags

SF35 Purple is a unique mineral NPK fertiliser combining a complex blend of nutrients from Potassium Sulphate through to granulated Soft Rock Phosphate. This is enhanced with beneficial biology, including Mycorrhizal fungi and phosphorus solubalisers *(such as Bacillus megaterium).*

Gentle yet Strong, SF35 Purple is a versatile fertiliser that ensures continuous nutrition especially for crops that place high demand on fertiliser availability and are subject to seasonal stress and bi-annual bearing.

Fruit quality is enhanced though improved Phosphorus availability throughout the growing season, coupled with balanced Potassium, Calcium, Magnesium and Trace nutrient release.

Tree Crops	150g/tree/year of growth up to 750g/tree
Vegetable	500+Kg/Ha in light soils, 1500+Kg in heavy soils
Table Grapes	500Kg/Ha
