PHYSICAL STOP BARRIER · INSTANTLY WATERPROOF · INSTANTLY EFFECTIVE · PAINTABLE WHEN SET · IPM COMPLIANT · METAL FIBERS REINFORCED · METAL DETECTABLE

Rather than killing rodents, RodentStop works by blocking their access with an innovative barrier formulation. The ecological benefits of RodentStop also make it ideal for use as part of an Integrated Pest Management (IPM) approach. It helps the user to effectively and humanely manage the problem of pests without having to resort to the use of chemicals.

NO PESTICIDE

Composition

RodentStop contains no pesticides or biocides and is manufactured from natural ingredients fillers, EPS beads and metal fibres.

The professionals choice

The versatility and flexibility of RodentStop make it ideal for use in a wide range of locations. It can be effectively incorporated into both new and existing buildings and is particularly well suited to hygiene sensitive areas such as food manufacturing and preparation facilities.

Quick and Easy

RodentStop is quick and easy to apply onto many surfaces. RodentStop is instantly waterproof, is unaffected by extreme temperatures and can be used both internally and externally.

With so many benefits, there really is no better way to deal with rodent pest problems in a safe, humane and effective manner.
