- **Concentrated - Value for money**
- **For Domestic or Commercial use**

NOT classified as Hazardous by Worksafe Australia.

CONTAINS: **CHLORO XYLENOL 2.0g/L**

DESCRIPTION:

"LIQUID HAND SOAP" is manufactured using gentle cosmetic detergents and lanoline moisturisers. Also incorporated is the well known active ingredient - "Chloro Xylenol' (Dettol) **- "which helps eliminate unwanted bacteria from the skin".**

"LIQUID HAND SOAP" is pH balanced ï your skin has a natural, slightly acidic moisture layer which inhibits the growth of harmful bacteria. Typical alkaline soap products destroy this layer, leaving skin feeling dry.

CUSTOM CHEMICALS INTERNATIONAL PTY LTD
