EXTRACT ONLY - PLEASE READ COMPLETE LABEL BEFORE USE

PESTS	APPLICATION	HOW TO USE
Cockroaches	Spray skirting boards, under cupboards, behind stoves and refrigerators, and other places where cockroaches live and hide	Shake can well before use using. Hold about 15 - 20 cm from the surface. The product can be used to form a residual barrier,or as a direct kill
Bedbugs	Spray areas where bedbugs hide, such as bed frames, floors and skirting boards	
Ants	Spray around garbage bins and food disposal areas and entry points	
Spiders	Spray where cobwebs appear	
Silverfish	Spray architraves, bookshelves, and other areas where paper is stored.	
Carpet Beetles	Lightly spray under carpets, lounge chairs and along skirting boards.	
Clothes Moths	Spray storage areas and in emptied drawers and wardrobes.	
Millipedes	Thoroughly spray surfaces inside the home where millipedes enter to maintain an insecticide barrier.	
Fleas	Infested rooms should be closed and treated by thoroughly spraying the carpet. Ventilate the room 4 hours after use. Ensure adequate ventilation during use.	

PRODUCT FEATURES

- Flexible extension tube that provides a smooth delivery
- Contains professional Strength actives for fast knock-down and long residual activity.
- Is an oil-based formulation that provides enhanced penetration and killing efficacy over water-based aerosols.
- Easy to apply and use, without any sputter
- Imiprothrin - excellent flushing and knock-down agent. Cypermethrin - long residual.
- The product will not foam like water-based aerosols and will consistently deliver the results, inline with your customers expectations.
